BGL2 Black Flag Laptops - I was thinking about that and i can't see why it would be designed like that. I would think this may be a design flaw in the game. It must have just been put there as a bit of easter egg or a joke. It feels like a bit of a different game from Call of Duty than that would make sense. Click to expand... It doesn't make sense at all! I know the anti-aliasing is meant to simulate the pixel AA from the snes, but you can clearly see that it's not anti-aliasing. The pixelation isn't even that high, it's completely different and frankly looks a lot more childish. I can imagine that the devs thought the text fits in with their other games when they made the custom font, but it looks really weird and almost childish. It doesn't make sense at all! I know the anti-
